

Check Seal™ 11RTV Silicone Sealant

Check Seal™ 11RTV is a one-component silicone sealant that cures to a pliable, low durometer solid. It is formulated for use with water and steam-based services.

Typical Characteristics

Applications	Acids, glycols, hydrocarbons, refrigerants, water, steam, bfw and many solvents CAUTION: Some of the additives in the steam and bfw can kill the cure.
Note: For chemicals, refer to compatibility chart	
Temperature Range	-300°F to 500°F
Limitations	Should not be used at temps over 500°F (260°C)
Appearance	Black silicone in caulking tube
Specific Gravity	1.06
Injection Characteristics	500 psi, flows well with minimum hydraulic pressure if injected with high pressure lubricator; may be poured or used with caulking gun
Cure	Flexible solid with moisture cure
Long Term Changes	None
Storage	70°F or lower

Packaging Information

Item Number	Unit Size	Quantity
CS110111	Cartridge	12 per box

DO NOT USE ON OXYGEN SERVICE.
Special packaging sizing available upon request.
