

Check Seal™ 454 P

Synthetic Fiber for Valve Stems, Rods and Shafts

Check Seal™ 454 P is a TFE-fluorocarbon fiber of select particle sizes for maximum bridging. It can be used as a packing material for valves and miscellaneous applications. This 100% TFE-fluorocarbon packing has low friction and non-adhesive qualities.

Recommended Services

454 P is a permanent packing which can be added to when needed and does not need to be replaced. It is resistant to most chemicals across the entire pH range.

Typical Characteristics

Color	White coarse flakes
Solids Content	PTFE
Density (lb/gal)	7 (bulk)
Temperature Range	Up to 450°F (232°C) - no minimum

Packaging Information

Item Number	Unit Size	Quantity
CS0250012RD	0102-12, 1 pt friction top	12 per box
CS0516005BP	5 lb can	

DO NOT USE ON OXYGEN SERVICE.
Special packaging sizing available upon request.
