

# AQUA POZO Cu

## COPPER BASED DRILLING COMPOUND

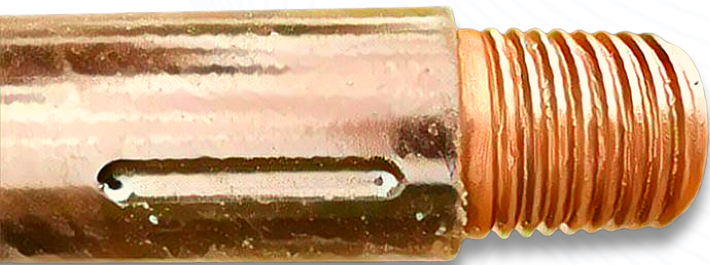

Aqua Pozo Cu is a premium tool joint compound formulated to prevent downhole make-up even under high drilling torques frequently experienced while water well drilling. It contains copper flake and other solid lubricants and additives in a high-quality grease base. It resists water washout and provides easy breakout without galling. Aqua Pozo Cu doubles as a premium anti-seize compound and high temperature lubricant for bolts, flanges, and studs.
